

Environmental Policy

Roth North Europe A/S possesses core competencies within underfloor heating and pipe systems for tap water and heating. The products within the product category of piping systems for tap water meet the highest standards for national testing. The Roth Group's product concepts are of high quality and durability. The group uses materials that last for many years and ensures that products are up to date following the recent developments for improvement (e.g., energy efficiency and water management).

Roth North Europe A/S is supporting the United Nations' 2030 Agenda for Sustainable Development and the Sustainable Development Goals (SDGs). Protecting the environment, the health and safety of our employees, and the community in which we are conducting our business is of utter importance to us.

Roth North Europe A/S has adopted a Code of Conduct which applies to the whole of the Roth Group at the management level. Every employee receives the Roth Group Code of Conduct and is obliged to read it through and sign and agree to the content before employment.

Roth North Europe A/S has an appointed Quality Manager and a Product Sustainability Specialist. These persons are responsible for all Environmental and Quality issues.

The primary logistics provider used by Roth North Europe A/S has an acknowledged environmental policy and has submitted a science-based target for scope 1, 2, and 3 aligned to 1.5°C. They have joined the 1.5°C Supply Chain Leaders group to reduce emissions in the supply chain globally.

The primary provider of packaging used in the logistics center at Roth North Europe A/S takes an active position on the ten goals of the UN Global Compact and has an environmental policy that is integrated into their daily work processes. Roth North Europe A/S is committed to reducing especially single-use plastic packaging, but also packaging in general.

Certificates of Environmental Management Systems and ISO certificates from the Roth Group's own factories as well as test certificates can be obtained by contacting Roth North Europe A/S and asking for the Quality Manager and/or the Product Sustainability Specialist.
